

### REMARKS

In the outstanding Office Action, the Examiner rejected claims 10, 13 and 14 as being indefinite under 35 USC 112(2). In addition, the Examiner rejected claims 1-6, 9, 10 and 13 as being obvious over U.S. Patent No. 3,730,601 to Misenheimer III in view of U.S. Patent No. 5,234,267 to Pauer. Applicants gratefully acknowledge the Examiner's statement that claims 23-26, 28 and 29 are allowable, and further that claim 14 would be allowed if rewritten to overcome the indefiniteness rejections and to include all of the limitations of the claims from which it depends.

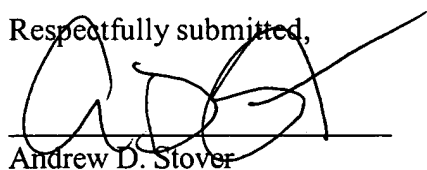

In response, Applicants have cancelled claims 1-6, 9, 13 and 14 and rewritten claim 14 in independent form (see claim 10). Applicants also have amended claim 10 to overcome the indefiniteness rejections. In particular, Applicants have replaced "said at least one shelf member" in line 6 with "a corresponding one of said shelf members." In addition, Applicants have replaced "at least two of which" in line 8 with "at least two of said plurality of side panels" as suggested by the Examiner. Finally, Applicants have clarified the relationships of the various components with the respective shelf members. Accordingly, claim 10 is now in condition for allowance.

Applicants respectfully request entry of the above-noted amendments under 37 CFR 1.116 as putting this case in condition for allowance, or in better condition for appeal. In particular, the noted amendments cancel various claims and comply with requirements of form.

Applicants submit that in view of the foregoing amendments and remarks, all of the pending claims are now in condition for allowance, and notice to that effect is earnestly solicited. No fees are due in connection with this Amendment. Any questions about this Amendment should be directed to the undersigned attorney at (312) 321-4713.
